Paymentwall Front-end Test (React.js)

Goal: Create simple cart application using **React + Redux**

- Cart has empty state by default. When user clicks on **"Add to cart"** button, product should be added to the cart items list above.
- User can remove product from the cart list using remove button - ⊖
- User can change product quantity in cart using quantity switcher, product **total price** and cart **total amount** should be changed accordingly.

Cart

Item	Price	Quantity	Total price	
Product name	50 USD	- 2 +	100 USD	⊖
Product name	30 USD	- 1 +	30 USD	⊖

Total amount: 130 USD

Products

Product name	Product name	Product name
50 USD	**30 USD**	**20 USD**
Add to cart	Add to cart	Add to cart
